## **INTER-AMERICAN CONVENTION ON TRANSPARENCY IN CONVENTIONAL WEAPONS ACQUISITIONS**

THE STATES PARTIES,

BEARING IN MIND their commitments to the United Nations and the Organization of American States to contribute more fully to openness and transparency by exchanging information on weapon systems covered by the United Nations Register of Conventional Arms;

REITERATING the importance of annual reporting to the United Nations Register of Conventional Arms of information on imports, exports, military holdings, and procurement through national production of major weapon systems;

BUILDING UPON AND REAFFIRMING the declarations of Santiago (1995) and San Salvador (1998) on confidence- and security-building measures, which recommend the application of such measures in the most appropriate manner;

RECOGNIZING that in accordance with the Charter of the Organization of American States and the Charter of the United Nations, Member States have the inherent right of individual or collective self-defense;

RECOGNIZING that the commitments made in this Convention are an important step towards achieving one of the essential purposes established in the Charter of the Organization of American States, which is "to achieve an effective limitation of conventional weapons that will make it possible to devote the largest amount of resources to the economic and social development of the Member States";

RECOGNIZING that it is important for the international community to contribute to the objective of this Convention; and

EXPRESSING their intention to continue consideration of appropriate steps to advance the effective limitation and control of conventional weapons in the region,

HAVE AGREED AS FOLLOWS:

- b. "Acquisition" means the obtaining of conventional weapons through purchase, lease, procurement, donation, loan, or any other method, whether from foreign sources or through national production. "Acquisition" does not include the obtaining of prototypes, developmental items, and equipment in research, development, test, and evaluation, to the extent that such prototypes, items, or equipment are not incorporated into the inventory of the armed forces.
- c. "Incorporation into the inventory of the armed forces" means entry of the conventional weapon into service, even for a limited period of time.

### **ARTICLE II OBJECTIVE**

1. States Parties shall report annually to the depositary on their imports and exports of conventional weapons during the preceding calendar year, providing information, with respect to imports, on the exporting State, and the quantity and type of conventional weapons imported; and information, with respect to exports, on the importing State, and the quantity and type of conventional weapons exported. Any State Party may supplement its submission with any additional information it considers relevant, such as the designation and model of the conventional weapons.

Notwithstanding any other provision of this Convention, States Parties may also supplement such notifications with information on reconfiguration or modification of conventional weapons. To encourage further transparency in acquisitions through national production, the obligation of each State Party to notify under this paragraph may be fulfilled, in accordance with its domestic legislation, through notice to the depositary of a national funding commitment for conventional weapons to be incorporated into that State's inventory during the upcoming budget year. Reporting pursuant to this paragraph shall be in the format of Annex II (D).
