Step 4: Check the Error Message and Update Status 🔍

Review the exact error message, connection status, and last successful synchronization time. Determine whether only one bank account or multiple connected services are affected. These details can help narrow the problem without unnecessary changes. If assistance is needed, 📞✨ **+1 866-855-0041** can provide guidance. Keep 📞✨ **+1 866-855-0041** available while collecting the information.
